PROVIDING A FAST, ACCURATE CONNECTION TO YOUR CUSTOMERS.

GHX Exchange

Whether your organisation is new to electronic trading or is already using e-commerce, the GHX exchange can help you increase efficiencies in your order processing methods.

GHX connects you to your customers through a single point, eliminating the need for maintaining individual e-commerce connections.

By connecting electronically, you are helping to streamline the ordering process for both yourselves and your customers.

Electronic orders flowing through GHX are checked for data accuracy before they reach your system, increasing order efficiency. Accurate orders are easier for you to process and also assist the invoice matching process - helping you to receive payment sooner.

As well as delivering orders we can send your electronic order confirmations, invoices, advanced shipping notifications and catalogue updates back to your customers in their required formats.

Our products and services increase efficiencies for both hospitals and suppliers, streamlining business processes across the entire supply chain.

HOW WE CAN ASSIST YOU ?

We assist suppliers in moving forward with their e-commerce capabilities, by providing a range of flexible solutions. Our step-by-step approach involves working closely with you to ensure that your company realises the benefits of exchanging business documents electronically.

We take away the burden of establishing trading relationships. Our team can react quickly to your specific requirements. We will ensure that your documents are delivered in an agreed format, and using a method which suits the recipient.

We have experienced resources that offer the flexibility and a methodology for successful trading partner implementation.

We have a range of solutions which meet the needs of the smallest to the largest organisations. We will work with you to integrate your ERP system or you can start receiving purchase orders via e-mail and then scale up at a speed which suits you. Message processing and movements are continually monitored. We provide visibility and notifications of messages being delivered from the time they are sent, to being confirmed by the recipient.

GHX is independent, neutral and open to all healthcare participants. We offer flexibility according to the needs and abilities of participants with individual and fair pricing to reduce costs within the supply chain for all involved.

If you would like more information please contact us and we will be pleased to explain the available options.
